TECHNICAL DATA SHEET

KILZ Wood Cleaner & Brightener

KILZ Wood Cleaner & Brightener is formulated to clean, brighten and condition exterior wood surfaces prior to applying natural finishes, paints or stains. This product will remove exterior stains caused by mold, mildew, algae and fungus as well as household stains such as BBQ sauce, ketchup, wine etc. Removes mill glaze on new wood. After application of KILZ Wood Stain & Finish Stripper to remove an existing coating, use KILZ Wood Cleaner & Brightener to neutralize the stripper, restore the natural wood colour, and condition the surface prior to applying a stain or finish.

WHERE TO USE

Ideal for use on new, stained or weathered horizontal or vertical exterior surfaces such as:
• exterior wood & composite decks, siding, shakes, shingles, fences & patio furniture
• vinyl & aluminum siding
• masonry, stucco and concrete

PRODUCT
No. L0506C
3.79 L

COMPOSITION
Active: Oxalic Acid
Weight per 3.79 L (kg): 3.86 +/- 0.09
Volume Solids: 4.7% +/- 2%
Weight Solids: 6.6% +/- 2%
Viscosity: 14-20 sec, #2 Zahn Cup

VOC (C.O.V.): <0.1 wt %

FLASHPOINT
N/A

SURFACE PREPARATION
• Be sure to have a source for water, hose with nozzle and stiff bristle broom or brush. Wear protective clothing, goggles, and acid resistant gloves. Always use KILZ Wood Cleaner & Brightener after application of KILZ Wood Stain & Finish Stripper. Prevent all rinse solution from entering storm drains.

APPLICATION
• For best results, apply when temperatures are between 5-32˚ C.
• Shake well before use. Conduct a small test patch in an inconspicuous area to ensure product performance.
• Wet surfaces with water prior to cleaning. Apply solution liberally with a pump sprayer, brush, mop or roller. Keep the surface completely wet with solution for 10-15 minutes.

• DO NOT MIX IN METAL CONTAINER. Ensure that the plastic mixing container is large enough to hold up to 7.6 L of diluted solution. Dilute 1 part of product with 1 part water (1:1 dilution) in a clean plastic container.
• For removal of rust, tannin bleed, red clay stains and for extremely hard to clean weathered wood surfaces, use product at full strength.
• NOTICE: Do not mix KILZ Wood Cleaner & Brightener with chlorine bleach or with any other household or industrial cleaning product or detergent.

• Scrub surface using a stiff bristle broom or brush. The solution will foam. After scrubbing, rinse thoroughly with water at normal pressure, or use a pressure washer at low setting (500-1200 PSI).
• Coverage: Coverage is up to 19 m² (200 sq. ft.) at full strength; 37 m² (400 sq. ft.) when diluted.
• DO NOT USE HIGH PRESSURE as this may harm the wood. Surfaces other than wood may be dulled if not rinsed off quickly.
• After surface is dry, lightly sand any loose wood fibers with medium grit sand paper. Sweep away dust before coating.
KILZ Wood Cleaner & Brightener

WOOD CLEANER & BRIGHTENER

CLEAN UP & DISPOSAL
• Clean equipment with warm, soapy water. If spilled, contain material and remove with an inert absorbent. Dispose of contaminated absorbent, container and unused product in accordance with all current governmental regulations.
• Do not dispose of this product down a drain. Please consider donating any unused product. For recycling or disposal information contact your local household refuse collection service.

CAUTIONS / LIMITATIONS
• Protect from freezing.
• For best results, apply at temperatures between 10° C - 32° C. Temperatures above 32° C may affect the application such as drying too fast. Avoid painting in direct sun. NOTE: If the surface is hot to the touch it should be considered too hot to apply this coating.
• Avoid heavy traffic for 24 hours.
• CAUTION: Surfaces may become slippery when wet. Use caution when walking on surface when moisture is present.
• Allow two weeks before washing or cleaning for full cure.
• Shelf life under normal conditions is two years unopened.

GENERAL INFORMATION
Keep From Freezing / Read All Directions Before Opening Container

WARNING! If you scrape, sand or remove old paint, you may release lead dust. LEAD IS TOXIC. Contact the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead.

WARNING! Sanding or scraping pressure treated lumber may be hazardous; wear appropriate protection.

MAY IRRITATE EYES AND SKIN. Avoid contact with eyes, skin, and clothing. Do not breathe fumes. Keep out of reach of children. Wear eye protection and protective clothing. Use only with adequate ventilation.

FIRST AID
• Contains OXALIC ACID (SOLUTION LESS THAN 10%). If swallowed, call a Poison Control Centre or doctor immediately. Do not induce vomiting.
• If in eyes, rinse with water for 15-20 minutes.
• If on skin, rinse well with water.
• If inhaled move person to fresh air.

CAUTION:
KEEP OUT OF REACH OF CHILDREN
DO NOT TAKE INTERNALLY.
